

It has come to my attention that low power fm stations may have priority over current fm translator service in the future. For me this means I may not be able to listen to the station that I love. K-love, heard on 90.7 is a positive, encouraging station that serves many needs. This is a positive voice which is among so many negative ones in our world today. Please consider the continuation of current fm translator service as having priority over low power fm stations. Thank you, A concerned listener, Teri Mcneely
